

PROLEEVAMAX'S ALL NATURAL INGREDIENTS

CHOLINE L-BITARTRATE

62.5 mg per capsule

Choline Bitartrate is critical for several functions, including a wide range of roles in the human metabolism, from neurotransmitter synthesis to cell structure and methylation. A combination approach of choline bitartrate has shown enhanced athletic performance, reduced cholesterol levels, protection from liver disease, control mood swings, and help improve memory.

CURCUMIN 95%

125 mg per capsule

Curcumin has powerful anti-inflammatory properties that promote soothing comfort in muscles and joints by blocking the COX-2 enzymes responsible for inflammation and pain. In addition, it also boosts the activity of your body's antioxidant enzymes, delivering a one-two punch against free radicals, blocking them directly and then stimulating antioxidant defenses.

BOSWELLIA EXTRACT

37.5 mg per capsule

Boswellia and its active ingredients, such as boswellic acid, have an excellent anti-inflammatory effect on the body. One of these acids, boswellic acids, acetyl-11-keto- β -boswellic acid is the most potent inhibitor of 5-lipoxygenase, an enzyme responsible for inflammation.

L-ARGININE HCl

112.5 mg per capsule

L-Arginine is an amino acid that has the ability to improve blood flow and clear out inflammation in the body. The antioxidant supplementation of L-Arginine restores the balance between reactive oxygen species and antioxidants, thereby protecting tissues from the harmful effects of oxidative stress.

RESVERATROL (JAPANESE KNOTWOOD)

62.5 mg per capsule

Japanese Knotweed (Polygonum cuspidatum Extract (root) 98% resveratrol) is a rich source of antioxidant agents that also provide anti-inflammatory potential. It helps prevent oxidative stress and improves cellular integrity.

GABA (GAMMA-AMINOBUTYRIC ACID)

50 mg per capsule

GABA is an inhibitory neurotransmitter in the nervous system that suppresses the sensation of pain and anxiety. GABA plays an important role in sensitivity for neuronal firing, mood, cognition, pain, sleep, and movement disorders.

PANAX GINSENG ROOT POWDER

50 mg per capsule

Panax ginseng regulates each type of immune cell including, macrophages, natural killer cells, dendritic cells, T cells, and B cells. Ginseng can alleviate pathological symptoms and prevent potential diseases thanks to its anti-inflammatory, antioxidant, and homeostatic properties.

MATCHA GREEN TEA LEAF POWDER

112.5 mg per capsule

It's no secret that matcha green tea leaf powder has amazing antioxidative properties. Studies have shown that when matcha green tea is used in addition to a balanced diet, it can improve the overall antioxidative status and protect against oxidative damage within the body.

5-HTP (5-HYDROXYTRYPTOPHAN)

30 mg per capsule

5-Hydroxytryptophan suppresses inflammation and arthritic pain by decreasing the production of pro-inflammatory mediators. 5-HTP is the amino acid that metabolizes into serotonin, a neurotransmitter that controls mood and pain.

L-GLUTAMINE

12.5 mg per capsule

Glutamine, an amino acid, is an abundant constituent of proteins. It is the only amino acid capable of readily crossing the barrier between blood and brain and, with glutamic acid, and is thought to account for about 80 percent of the amino nitrogen of brain tissue.

L-SERINE

12.5 mg per capsule

Serine is needed for the production of tryptophan, an essential amino acid that's used to make serotonin. It is also converted into D-serine in the cells of the nervous system. D-serine activates NMDA receptors in the brain that work as neurotransmitters.

BLACK PEPPER EXTRACT 95% PIPERINE

1.5 mg per capsule

Piperine is added to enhance the bioavailability of curcumin and other ingredients for optimal therapeutic properties against chronic pain and inflammation.

VITAMIN B6

.425 mg per capsule

Vitamin B6 is important for metabolism, immune response, neurotransmission, and other physiological functions. Studies on vitamin B6 revealed significant anti-inflammatory and analgesic potential.
